

A Response by Ron Avery to the book

***Erasing the Liberty*¹ by Phil Tourney & Dave Gahary**

1. I learned of the Israeli attack upon the USS Liberty some years back and that a lot of sailors had been killed and injured but none of the real details until I hosted an event where the two authors were speakers and they gave me their book to read after the event. I now wish I had read it prior to the event. In fact, I wish all the attendees would have read the book prior to the event. I am now very grateful, happy and blessed by having hosting such an event.
2. I read the book about a month after the event I hosted. It made me feel like I was on board the Liberty and was a fellow sailor.
3. I was not aware prior to the book of the level of sustained attack that the ship took which was over two hours including the attacks by air and sea.
4. After reading about the 8 Israeli reconnaissance flybys for hours prior to the surprise attack by a supposed ally, taking over 100 rocket hits, over 800 cannon hits and over 5000 armor piercing bullets and the torpedo hit, and napalming of the deck, death of 34 sailors and injury to 174 and how it was covered up at every level of government, I finally got the magnitude of the attack and full meaning of it to America.
5. Then it was truly scary to learn that our own military launched two groups of jet fighters able to repel the attacks but they were called back by President Johnson and Robert McNamara. Our own "Commander-in-Chief, who took an oath to defend the constitution from enemies both foreign and domestic knowingly let these acts of war inflicted without cause on a defenseless America navy ship continue by recalling their only defense. The attacks of June 8, 1967 was nothing short of a full blown act of war that has been ignored by the highest offices in the land to this hour.
6. Reading about this amount of hostility released upon a nation that had helped birth the present state of Israel was bad enough but my stomach began to ache when I read about how the survivors were treated after such a horrifying attack by a so-called friend. The survivors were put through extreme humiliation and degradation simply because it was Israel that attacked them.
7. The survivors were told to shut up and never tell anyone about the attack upon them by Israel not even to their closest family members including wives and children. They were forced to clean up and repair their own ship before they returned home so no one would know they had been attacked by looking at the riddled and listing ship. They had to be repaired in Malta in dry dock to fix the giant torpedo hole so the American public would not see it.
8. Upon returning home, they were forced to dock at a remote ship yard as opposed to the usual docks for naval ships so they would draw no attention from the public or the press.
9. The book documents a continuation of this humiliation until this very hour by those Jews and Zionists who don't want the real American people to find out what happened to the Liberty and the barbaric war crimes her sailors suffered from the fraudulent state of Israel on June 8, 1967.
10. Israel has shown unrivaled arrogance in their continued ruthless inhuman pursuit of those who merely want to be recognized for the real honor they deserve as victims of an act of war with little means of defending themselves. Israel instead of begging forgiveness for their evil has chosen to attempt to ruin the lives of all those who call for a real investigation of the event.

11. But there is a ray of hope in the book near the end where many of the highest ranking military staff at the time of the event have since filed affidavits and reports saying that the documents, books and records produced by Israel and Jewish sympathizers to prove the attack was by mistake are bogus and fallacious, disgusting, and their conclusions false and outrageous. Even some of the highest ranking military officers used in the initial cover-up have now spoken up and told the truth about it and that Israel is completely at fault and culpable for their unprovoked attack upon a helpless American ship in international waters even to the degree of machine gunning their life rafts which is a war crime as much as murdering prisoners after they surrender their arms.

12. I am now completely convinced that Israel has done the same thing on 9/11/01 but this time they were able to sink the World Trade Center and hit the Pentagon and blame it on the innocent just like they intended to do on 6/8/67 but the ship wouldn't sink, thanks be to God. The Jews can get away with all of this because it is now obvious that they have been in complete control of every level of government in America for over 50 years.
13. All this points to only one thing: The United States of America is no more. It has been unlawfully overthrown and dissolved by Jews and Zionists and they have enslaved our population and our so-called representatives to work for their interests not for the defense of the life, liberty and possessions of the American people. They threaten to cut off the unlawful monetary credit supply and crash the fraudulent economy and blame it on the officials if we don't do their will. And they use their weaponized mass media cartel to ruin the lives of anyone who goes against their interest. This unavoidable conclusion is expressed in their book on page 256.
14. But this will not last and this evil will be purged out of the land some time in the near future and those who have instigated these evils will have no refuge anywhere on the planet.
15. And finally Christians will no longer come to their rescue because the Christians will awaken to the fact that the Jews are no longer the chosen people but those who have had their hearts circumcised by the death, resurrection and ascension of Christ Jesus and not the mere blood line of Abraham. (John 8:37-45)
16. But let us all pray for the Jews that they repent of these evils and that they accept Christ Jesus as their savior that was sent to them so they could inherit eternal life and enter the Kingdom of Heaven just as true Christians have. I wish no harm on anyone or any group but I will expose the crimes of others who want to harm me and my countrymen when I witness them.
17. God spared the USS Liberty and if we pray enough to Him and stand up for our own nation and people He will also spare our nation. But I don't think He will hear cowards and those who choose to be ignorant and go along to get along.
