Dear Sheriff _____,

I am writing to let you know that I am in the process of organizing a militia in Guadalupe County, Texas, the sole purpose of which will be to protect the life, liberty and possessions of the people of our community and their means to protect the same. As you know CNN and TIME WARNER through their television networks have launched a campaign to use their powerful 24-7-365 “news” network to misinform the people and bring pressure upon the US Congress to pass legislation to ban what they call “assault weapons.” Their ultimate goal as stated by Piers Morgan is to pick up all guns of virtually every description as they have done in Australia. As you also know these powerful multinational global corporations have limited their definition of the Second Amendment to allow guns for the sole purpose of hunting deer and defending the home from a burglar or two maybe.

In the wake of these terrible events in Newtown, Connecticut, it has become painfully clear that powerful entities in our nation and state are attempting to disarm the people at a time when all economic experts have predicted a collapse of the US currency and its rejection as the world reserve currency. This will flood our nation with unconstitutional paper Federal Reserve Notes as three quarters of all our paper money is still overseas. All of that could come back quickly and cause major difficulties for our people and the federal government may be tempted to use military force against the people against their will and rights and property. It is also apparent that we can no longer count on our so-called elected officials to protect our properties. For this reason we can no longer put off forming armed militias to work together to prevent the abuse of our people. We cannot allow international corporations and gutless politicians to create an American holocaust because mentally ill children have committed insane and horrible crimes with guns.

Guns are not responsible for the mental instability of our youth and just because they use guns in their disparate acts is not justification for the disarmament of an entire nation placing them at the mercy of a well armed US military at the will and call of powerful men with agendas that are not beneficial to the American people.

Anyone who is familiar with the Preamble to the Bill Rights and the Federalist Letters (#29 particularly) written by our forefathers know that the sole purpose of the Second Amendment was to “prevent” the Federal Government from “misconstruction or abuse of its

powers.” Anyone knowledgeable of the Second Amendment knows that all people have the right to keep and bear arms so that they may form militias to protect the state and/or the people of it. Alexander Hamilton also made it clear that the use of the militia was to protect the people from a standing federal army or any other force that threatens the liberties of the people.

We all know how difficult it can be to stand against federal officers and the local, state and federal political pressure and even pressure from local citizens. Therefore, it is not my intention to pressure you to make a public statement about your intentions to assist or resist federal or state officers in Guadalupe County in an effort to impose gun bans, gun registration and gun confiscation in our county. However, I will privately ask that you resist all efforts of any to take those actions against the right of the people to keep and bear arms and to organize those individual rights into a collective combined effort to defend our property.

Certainly, we would be at your call for any assistance you may need to uphold the natural and constitutional law in Guadalupe County against all who would try to infringe upon those rights. However, we are not asking you for your permission to form this militia, as it is not required. Nor will we be asking the Governor of Texas or anyone else for their permission to assert our God given right to form an armed militia of the people to act in our defense. The Second Amendment is merely a statement of that God given right and nothing can have authority to repeal or infringe upon it or to make laws against it.

Further, guns in the hands of an unorganized people are not much good against a military or police force that is intent on confiscating them. God has ordained that people can unite and coordinate their defense to any action to disarm them and make them vulnerable to tyranny. For that reason we are now asserting the other part of the Second Amendment, namely the right to militia. However, we intend to keep you posted on a regular basis as to how we are progressing and the strength of it and extent of our training and response times, etc. We would be available for the purpose of being made a posse for the purpose of defending the lives, liberties and possessions and rights of the people of Guadalupe County, Texas.

We know and coordinate with Sheriff Richard Mack who has written a book entitled *The County Sheriff America's Last Hope* that contains his findings regarding the power of the local county sheriff and their superior authority over all others in their county and their power to deputize and form posses. We are also consulting with Dr. Edwin Vieira Jr. constitutional attorney and author of *Constitutional "Homeland Security" – A Call For Americans to Revitalize "The Militia of the Several States"* and Jon Roland of Constitution.org. Also you may find a great deal of information about the present need, our eternal right and method of the citizens to form militias at our website www.LawfulGovernment.com. We will be happy to meet and cooperate with you as we progress if that is your wish.

Sincerely Yours,

Your name
