

**Learn with your neighbors how to defend and save your Community, State and Nation.**

We are being deceived by privately owned television networks working with traitors within our government that have an agenda that is alien to the will of the people and the founders of this nation and the freedoms and prosperity we once had. We will either learn what our rights are and assert them or we will perish one by one and in mass as happened in Russia.

Not only do the traitors in Washington and global media moguls want to confiscate all the “military style assault weapons” they want hand guns. Essentially, they will not stop until the people have nothing for defense but garden tools so they can do with us as they please with impunity.

There is no such thing as an “assault weapon” until it is used in an assault. All weapons used in assault are unlawful. All weapons used for defense are lawful.

With the threat of economic and social chaos in the near future that all have talked about, it would be suicidal to surrender our only defense to tyranny. As tragic as the shootings were at Sandy Hook, Aurora and Columbine they are nothing compared to the American holocaust that will surely follow the disarmament of the American people.

We know that these killings are not the result of firearms but of mal-adjusted young people who are lost in a society where the government violates the Constitution, the schools are void of principles and the church cowardly sleeps through it all. CNN and TIME WARNER hate kids and want their parents disarmed.

We are sick of CNN and its owner, TIME WARNER, using their global television network, around the clock, to brainwash everyone into disarming the American people.

We are sick of Piers Morgan telling us that the founders did not tell us what the purpose of the 2nd Amendment was or what type of firearms it covered! He is a foreign liar!

## Keep & Bear & Militia!

The 2nd Amendment not only provides for the “keeping and bearing” of “firearms” but protects the right of the people to “militia” and even form a “well-regulated” militia. The Latin term *Militia* simply means *defensive activity* of self, community, and property.

Even the British foreigner, Piers Morgan, says we Americans have a right to self-defense. Well that includes the right to organize and defend ourselves in groups with “military style” defense weapons. One can militia by themselves or in groups.

## Why a Militia now?

The only reason a government would want to disarm its people is to harm them with impunity. A government cannot kill and starve 45,000,000 people if they are armed with “military style” defense weapons. Just ask Joseph Stalin. Don’t think it can’t happen in America!

The unconstitutional paper money loaned to the Federal government by the unconstitutional Federal Reserve Bank will soon be abandoned as the world Reserve Currency in favor of another nation. This means nations will dump their Federal Reserve Notes and all of it will return to America. That means hyper inflation! This will lead to all kinds of social instability. The government will want to use military force to “manage” the people or place them in FEMA work camps already built and staffed.

## Who can form a Militia?

Anyone can form a militia. The governor can call up a militia and outfit it with state funds. But the people can organize themselves on their own without state funds. The county sheriff can call up the local militia and outfit it with county funds and deputize them into a posse. But the people on their own can organize into a militia without any official permission.

## What is your right to Militia?

Your right to militia comes from your right to self-defense as shown earlier. One person may not be sufficient to defend ones own life, liberty and possessions and therefore coming together can increase the potential of successful self-defense. In fact all law is based upon nothing more than the combined individual right of self-defense of all the people.

## Does Militia need Permission?

As also shown earlier, people have a right to form a militia springing from their right of self-defense without the permission of any “government official.” A militia may only act in defense of the rights and property of the people against all comers including those in government.

## Where does 2nd Amendment come from?

Many, including Dianne Feinstein get the idea that the US Congress can repeal the 2nd Amendment as if it came from Congress or the Constitutional Convention. But in fact the 2nd Amendment is a declaration of a God given right. The US

Congress cannot alter or repeal the 2nd Amendment any more than they can repeal the 10 Commandments.

## Can the 2nd Amendment be “regulated” or repealed?

Contrary to liars like CNN, Time Warner, Piers Morgan and lots of other global elitists, the purpose of the 2nd Amendment was made crystal clear by the founders in the Federalist Letters and the Preamble to the Bill of Rights of the US Constitution.

The Preamble said the purpose of all 10 Amendments was **to prevent the misconstruction of the powers granted** to the Federal government. So Piers, where is deer hunting and burglar prevention in this? NO-WHERE! The right to keep, bear and militia was to prevent Federal troops or the US Army from trampling our rights and property.

That also means “we the people” are to have access, possession and ownership of all types of firearms and armament that the Federal standing army has. That means to “regulate” is to restrict which is to “infringe!”

Federalist Letter #29 on the militia confirms this understanding and actually says that the Militia made up of the people should have the same arms and the same skill in their use as the Federal army.
